I found out that Salton has bought them out in 1994 or sometime around then. I looked at the Salton instructions and I believe if you are having trouble freezing ice cream in the 6701 machine, you should try using it only HALF full, as it will not work properly otherwise, per the instructions for Salton. This is actually a pain in the butt to do, as most recipes make about 1-1/2 Qts. I think I am just going to get rid of this useless machine that my sister in law handed down to me. Or freeze half of the recipe, clean it, refreeze the canister and then freeze the rest the next day...???...as I said, pain in the butt."
